## ABOUT ME

Motivated and experienced data analyst with a strong understanding of data analysis processes and their application for strategic business decision-making. Possessing a high level of expertise in processing and analyzing large volumes of data, as well as building machine learning models. I strive for continuous learning and development to stay updated on the latest trends in data analysis.

## WORK EXPERIENCE

 **COCA-COLA COMPANY** – ISMAYILLI, AZERBAIJAN  
**PRODUCTION OPERATOR** – 2025 – CURRENT

 **ALAS ACADEMY** – BAKU, AZERBAIJAN  
**DATA ANALYST** – 2023 – 2024

**Microsoft Excel:** I underwent training and actively employed Microsoft Excel for hands-on data analysis and the creation of reports. I utilized Excel to analyze data directly, creating clear and informative reports that facilitated a deeper understanding of the information at hand.

**Python:** Upon completing Python programming language courses, I applied the knowledge gained to automate tasks, conduct detailed data analysis, and construct sophisticated analytical models. My practical use of Python revolved around tasks like data manipulation and machine learning.

**Power BI:** I gained proficiency in using Power BI through hands-on experience, employing it to craft interactive dashboards and reports. This practical application allowed me to visualize data effectively and present it in a meaningful way for better insights.

**SQL:** Through training in SQL, I practically applied the structured query language to interact with databases. I used SQL to directly extract and analyze data from databases, contributing to a more profound comprehension of the data.
